#### Elective Cybersecurity Courses - (9 credits) Choose 3, such as...

CYBR 691	Special Topics in Cybersecurity	
CYBR 685	Principles of Network Communications	
CYBR 621*	Cyber Warfare	
CYBR 622*	Global Cyber Capabilities and Trends	
CMSC 691	Special Topics in Computer Science	

**All other course electives or substitutions (CMSC, CMPE, IS, etc.) must be approved by the GPD**

For cybersecurity course descriptions please visit: [www.umbc.edu/cybersg](http://www.umbc.edu/cybersg). For descriptions of other courses (e.g. CMSC, CMPE), please visit the website of the respective department. Some courses may have prerequisites; consult the specific department or instructor for further information.

Up to six (6) relevant credits may be transferred into the MPS provided they were not applied toward another earned graduate degree.

For class schedules please visit: [umbc.edu/go/schedule](http://umbc.edu/go/schedule).

**Special Note:** When necessary, please contact Nancy Clements at [nancyc@umbc.edu](mailto:nancyc@umbc.edu) for course permission.

\*Indicates the 4 course graduate certificate. Students may choose to take this certificate by itself, or they may take this certificate and then later complete the master's. If a student is accepted into the M.P.S.: Cybersecurity, all 4 certificate courses count toward that degree.
