*Program Prerequisites

NOTE: This suggested planning guide is NOT intended to serve as an official articulation agreement. Please review the information below for further details on course requirements. See your MC counselor and/or a UMBC-Shady Grove program representative for more information.

General UMBC Notes:

- UMBC requires a minimum of 120 credits and a minimum 2.0 GPA for graduation
- Students may transfer a maximum of 60 credits from a two-year school and up to 90 credits from a four-year school to UMBC.
- Once enrolled in a degree program at UMBC, courses listed in ARTSYS may no longer apply. Students will need to check with their advisors and complete a Verification of Transferability form in order to ensure proper transfer of coursework.
- **Math Requirement** - Survey of College Math will only fulfill the UMBC GEP Mathematics requirement if a student completes the course with a C- or better prior to transferring to UMBC.
- **World Language Requirement** - A single language through the 201-level; exemptions based on proof of completion of Level 4 of a language in high school or results of a language proficiency exam. Students may demonstrate foreign language proficiency through other methods. Please see your academic advisor for more information. If exempt, take a general elective in place of language courses.
- **Physical Education Requirement** - UMBC requires that all students complete two Physical Education activity courses, with some exceptions: students who are 30 years of age or older at the time they begin their studies at UMBC and/or students who have served in the military (must submit copies of their DD-214 paperwork to Office of the Registrar). Students with medical reasons for exemption should contact their Program Director at UMBC. PE credits are not counted towards the final 120 academic credits required by UMBC. MC's Personalized Health Fitness course includes a physical activity portion; therefore, it will fulfill 1 PE requirement.

Specific Political Science Program Notes:

- No grade lower than a "C" in any course will be counted toward the required total credits for the major.
- Math Recommendation – While students who transfer from MC may use Survey of College Math to fulfill the Gen Ed Math requirements, MC's Elements of Statistics course is the recommended course to fulfill both the Gen Ed requirement and to prepare the student for POLI 300.
- Students are encouraged to participate in an internship experience during their program. The program can assist with placement and academic credit is awarded if students submit weekly reports and a final paper. However, an internship is not required for the POLI major. Please see your Program Director for more information.
